Check mark the right option (face value of a digit is the value of the digit itself).

1)

The place value of digit 5 in the number 5,397 is.

- a) 5                      b) 50                      c) 500                      d) 5,000

2)

The face value of digit 3 in the number 6,834 is.

- a) 30                      b) 3                      c) 300                      d) 3,000

3)

The face value of digit 1 in the number 4,125 is.

- a) 100                      b) 10                      c) 1                      d) 1,000

4)

The place value of digit 4 in the number 49 is.

- a) 4                      b) 40                      c) 400                      d) 4,000

5)

The place value of digit 2 in the number 3,512 is.

- a) 2                      b) 20                      c) 200                      d) 2,000

6)

The face value of digit 8 in the number 458 is.

- a) 8                      b) 80                      c) 800                      d) 8,000
