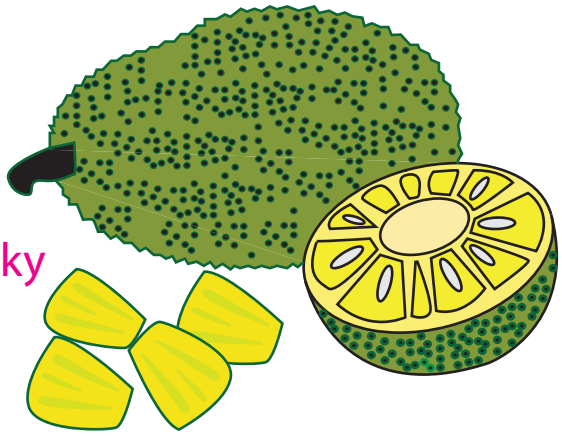
Jackfruit

Emma's father bought a big jackfruit. It was almost 30 pounds. Emma has never seen this fruit before. It was green in color with a lot of spikes over it. The fruit also had a strong pleasent aroma. Father and mother started pruning the jackfruit to extract its flesh which is sweet. She noted a white milky liquid upon pruning. She touched it and it was sticky. Her parents used some oil to prevent their fingers from sticking. Emma eagerly tasted the flesh and she loved the taste. Her mom also prepared jackfruit cake.



Answer the following.

1) How much did the jackfruit weigh?

_____

2) Who pruned the jackfruit?

_____

3) Which part of the fruit did Emma taste?

_____

4) Did Emma like its aroma. Pick a statement from the passsage to support your answer.

_____

5) What did her parents use to prevent their fingers from sticking?

_____

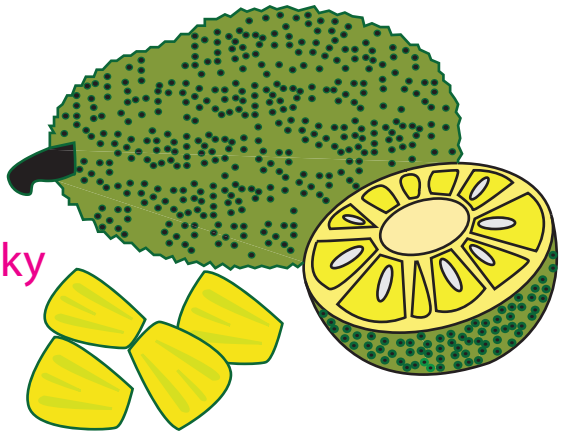
Jackfruit

Emma's father bought a big jackfruit. It was almost 30 pounds. Emma has never seen this fruit before. It was green in color with a lot of spikes over it. The fruit also had a strong pleasent aroma. Father and mother started pruning the jackfruit to extract its flesh which is sweet. She noted a white milky liquid upon pruning. She touched it and it was sticky. Her parents used some oil to prevent their fingers from sticking. Emma eagerly tasted the flesh and she loved the taste. Her mom also prepared jackfruit cake.



Answer the following.

1) How much did the jackfruit weigh?

The jackfruit weighed 30 pounds.

2) Who pruned the jackfruit?

Emma's parents pruned the jackfruit.

3) Which part of the fruit did Emma taste?

She tasted the flesh of the jackfruit.

4) Did Emma like its aroma. Pick a statement from the passsage to support your answer.

Yes. 'The fruit had a strong pleasant aroma'. This line shows Emma loved the aroma.

5) What did her parents use to prevent their fingers from sticking?

They used some oil to prevent their fingers from sticking.
