

Squares - Maze

Name _____

Score _____

PS:05

Help the parrot to reach its cage by coloring the squares.

The maze consists of various geometric shapes arranged in a grid-like pattern. The shapes include squares of different sizes, rectangles, triangles, circles, ovals, and a five-pointed star. A green parrot is positioned at the top right of the maze, and an orange cage is at the bottom left. The instruction is to color the squares to help the parrot reach its cage.

Squares - Maze

Name _____

Score _____

Answer key

PS:05

Help the parrot to reach its cage by coloring the squares.

The maze contains the following shapes:

- Yellow squares (the path): 18 squares of various sizes.
- White rectangles: 5 rectangles of various sizes.
- White triangles: 2 triangles.
- White circles: 3 circles.
- White ovals: 2 ovals.
- White star: 1 star.
- White pentagon: 1 pentagon.

The parrot is at the top right, and the cage is at the bottom left.
