

ROUNDING NUMBERS

Name _____

Date _____

RN:03

1. Underline the place being rounded.
2. Look to the number next door.
3. If the number is 5 or greater, add one more.
4. If the number is less than 5, keep it same.
5. Change all the numbers after the underlined digit with zero.

Example:

Round 623 to the nearest ten.

1. 623

2. Look next door - 6 2 3

3. 3 is lower than 5, the underlined number will remain the same.

4. Change all the numbers after the underlined digit with zero **620**.
