

Rectangles - Maze

Name _____

Score _____

RT:21

Help the Alien to reach its Planet by coloring the rectangles.

The maze consists of a grid of various geometric shapes. The starting point is a blue alien with two antennae and a red planet on its head, located at the top right. The ending point is a green UFO with a blue dome and four legs, located at the bottom left. The path is formed by connecting adjacent rectangles. The shapes in the maze include:

- Rectangles: Several of various sizes and orientations.
- Stars: Two five-pointed stars.
- Triangles: Two triangles.
- Circles: Several circles of different sizes.
- Polygons: A pentagon, a hexagon, and an oval.

Answer key

RT:21

Help the Alien to reach its Planet by coloring the rectangles.

The maze consists of various shapes: rectangles, triangles, stars, pentagons, circles, and hexagons. The path from the alien to the planet is formed by the following purple rectangles:

- Row 1: The first two rectangles.
- Row 2: The first, third, and fourth rectangles.
- Row 3: The first rectangle.
- Row 4: The first rectangle.
- Row 5: The second, third, and fourth rectangles.
- Row 6: The first, second, and fourth rectangles.
- Row 7: The first, second, and fourth rectangles.
- Row 8: The first, second, and fourth rectangles.
- Row 9: The first, second, and fourth rectangles.
- Row 10: The first, second, and fourth rectangles.
