

Squaring Numbers

Name _____

Score _____

Answer key

SC:05

Write the square of the numbers given below.

1) $11^2 = \underline{11 \times 11} = \underline{121}$

2) $8^2 = \underline{8 \times 8} = \underline{64}$

3) $30^2 = \underline{30 \times 30} = \underline{900}$

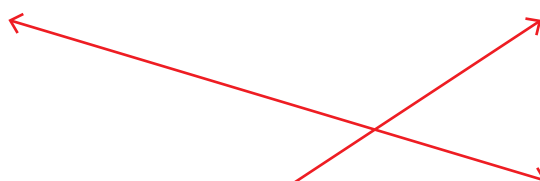

4) $15^2 = \underline{15 \times 15} = \underline{225}$

5) $21^2 = \underline{21 \times 21} = \underline{441}$

6) $40^2 = \underline{40 \times 40} = \underline{1,600}$

7) $6^2 = \underline{6 \times 6} = \underline{36}$

Match the following.

1) $(-12)^2$  100

2) 7^2  144

3) $(-10)^2$  576

4) 24^2  49
